

Specification of Carbon Cleaning Machine

S.N	Parameters	Specification	Remarks
1	Input Voltage	Three Phase 380 V to 420 V , 50 Hz	
2	Power	7 to 8 KVA	
3	Water Consumption	0.8 Ltr/hr to 1.2 Ltr/hr	
4	Operation	Automatic	
5	Insulation Level	Class F or better	
6	Working Gas Flow	1800 to 2000 LPH	
7	Working Gas Temperature Range	Minimum (0 to 40 degree Centigrade)	
8	Process Time	Maximum 30 minutes	
9	Compatibility Displacement range	Minimum (800 cc to 10000 cc) internal combustion Diesel and Petrol engine	
10	Weight	Maximum 150 Kg	
11	Cleaning Agent	The carbon cleaning machine should use HHO as cleaning agent (Non corrosive, non inflammable)	
12	Accessories	Minimum 20 bottles (Minimum 50 ml bottle) of HHO cleaning agent	
13	Trainning	2 days training for 3 personnel should be provided	
14	Manuals	Operation manuals in English	
15	Standard	ISO or Equivalent	
16	Warranty	Minimum 2 years/ Provided by OEM whichever is greater
